The Economic Outlook for the U.S. and Oklahoma

Chad Wilkerson
Vice President, Economist, and Oklahoma City Branch Executive
Federal Reserve Bank of Kansas City
www.kansascityfed.org
Overview of the Federal Reserve System

• The “Fed” consists of three main entities:
  • **Board of Governors**: 7 members appointed by U.S. President
  • **Federal Reserve Banks**: 12 total; semi-independent by design
  • **Federal Open Market Committee**: 19 members; 12 voting

• As with most central banks, the Fed’s primary responsibilities fall within four general areas:
  • **Lender of last resort** – provide liquidity in times of crisis
  • **Monetary policy** – promote full employment and low inflation
  • **Bank regulation** – ensure safety and soundness of banks
  • **Financial services** – bank for banks, bank for federal govt.
Federal Reserve Districts and Office Locations
The Oklahoma City Branch of the Federal Reserve Bank of Kansas City

And Europe’s sovereign debt crisis has spread, prompting the ECB to respond.
Interbank lending has become somewhat strained in Europe

EURIBOR & LIBOR-OIS Spreads

Source: Bloomberg
“Consistent with its statutory mandate, the Committee seeks to foster maximum employment and price stability. The Committee now expects a somewhat slower pace of recovery…than it did at the time of the previous meeting and anticipates that the unemployment rate will decline only gradually…. The Committee also anticipates that inflation will settle, over coming quarters, at levels at or below those consistent with the Committee's dual mandate as the effects of past energy and other commodity price increases dissipate further…. 

“To promote the ongoing economic recovery and to help ensure that inflation, over time, is at levels consistent with its mandate, the Committee decided today to keep the target range for the federal funds rate at 0 to 1/4 percent. The Committee currently anticipates that economic conditions--including low rates of resource utilization and a subdued outlook for inflation over the medium run--are likely to warrant exceptionally low levels for the federal funds rate at least through mid-2013. The Committee also will maintain its existing policy of reinvesting principal payments from its securities holdings….
“The Committee discussed the range of policy tools available to promote a stronger economic recovery in a context of price stability. It will continue to assess the economic outlook in light of incoming information and is prepared to employ these tools as appropriate.

“Voting for the FOMC monetary policy action were: Ben S. Bernanke, Chairman; William C. Dudley, Vice Chairman; Elizabeth A. Duke; Charles L. Evans; Sarah Bloom Raskin; Daniel K. Tarullo; and Janet L. Yellen.

“Voting against the action were: Richard W. Fisher, Narayana Kocherlakota, and Charles I. Plosser, who would have preferred to continue to describe economic conditions as likely to warrant exceptionally low levels for the federal funds rate for an extended period.”
At its June meeting the FOMC forecast U.S. unemployment to come down only slowly.
And for inflation pressures to ease after rising with oil and food prices in 2011.
The Fed’s balance sheet has tripled in size, and the federal funds rate is near zero.

The Oklahoma Economy

- Review of recent economic data
- A closer look at labor markets
- Trends in energy prices
Oklahoma had a much milder recession, and has been outpacing the nation recently.
Most Oklahoma sectors have grown solidly in 2011, led by energy and manufacturing.

Employment Growth
July 2011

Source: Bureau of Labor Statistics
Exports have been a big source of growth since 2009, both nationally and locally.
Manufacturing activity declined in several eastern regions in August, but not in ours.
Unemployment in much of the state is back to what is often considered “full employment”

Unemployment Rate
Seasonally Adjusted*

Source: U.S. Bureau of Labor Statistics
* Estimated by FRBKC
However, labor markets may not be overly tight due to labor force dropouts.
Most Oklahoma banks still remain in much better shape than the nation

Share of Unprofitable Institutions
Commercial Banks

As always, energy prices are Oklahoma’s biggest risk relative to nation.
Summary

- The U.S. economy is facing some headwinds following only modest expansion in the first half of 2011

- Oklahoma’s growth has been more solid, and fundamentals remain better in the state than the nation
