Overview of the Federal Reserve System

- The “Fed” consists of three main entities:
  - **Board of Governors**: 7 members appointed by U.S. President
  - **Federal Reserve Banks**: 12 total; semi-independent by design
  - **Federal Open Market Committee**: 19 members; 12 voting

- As with most central banks, the Fed’s primary responsibilities fall within four general areas:
  - **Lender of last resort** – provide liquidity in times of crisis
  - **Monetary policy** – promote full employment and low inflation
  - **Bank regulation** – ensure safety and soundness of banks
  - **Financial services** – bank for banks, bank for federal govt.
Federal Reserve Districts and Office Locations
Senator Robert Owen of Oklahoma and the Fed’s Formative Years
Key events in Owen’s early life and career

• **1856**: Born in Lynchburg, VA; father a railroad executive, mother a Cherokee citizen

• **1873**: Panic of 1873 destroys family’s wealth; Owen’s father dies later that year

• **1879-80**: Moves to Indian Territory with mother, admitted to bar as attorney at law

• **1885-89**: Serves as the federal agent for the Five Civilized Tribes of Indian Territory

• **1890**: Receives the first national bank charter in Indian Territory; opens First National Bank of Muskogee, is its president for 10 years

• **1893-97**: Bank narrowly survives the Panic of 1893 and subsequent economic depression
The Panic of 1893—and the depression that followed—hit the middle of the country hard.

Owen in the decades after the Panic

- **1898**: Travels personally to the central banks of England, France, Germany, and Canada to learn how central banking might work in the United States
- **1900-1906**: Runs private law practice and becomes increasingly involved in politics
- **1907**: Elected as one of Oklahoma’s first two U.S. Senators; the Panic of 1907 enhances the push for a new central bank in the United States
- **1907-1912**: Focuses attention on banking issues in first of three U.S. Senate terms
- **1913**: Named the first chairman of the new Senate Banking Committee; is Senate sponsor of the Federal Reserve Act, which is signed into law on Dec. 23
Owen’s proposal for a new U.S. central bank most closely resembled the actual Fed

**Primary Competing Proposals to Form a U.S. Central Bank**

1913

A new exhibit at the Oklahoma History Center next month will honor Robert Owen

- Press conference and exhibit unveiling:
  - October 16, 5:30 p.m., Oklahoma History Center
  - Current and past Fed leaders will be in attendance
  - For information about attending that event, see our event staff tonight or contact us at annette.phillips@kc.frb.org

- Exhibit opens to the general public:
  - Starting October 17 at the Oklahoma History Center

- For more on Owen and the early Fed:
The Oklahoma Economy, 100 Years Later
Employment in Oklahoma remains just above pre-recession levels, but has eased lately.
Energy jobs are down in OKC and rural OK, while most other sectors are up or mixed.

Metro Employment Growth by Industry
August 2013

Percent change year-over-year

Summary

• 100 years ago, an Oklahoman was a key contributor to forming a regional Federal Reserve System

• The Oklahoma economy has slowed in 2013, especially in non-metro areas, but remains solid overall
