Recession and Recovery in the U.S. and Oklahoma

Chad Wilkerson
Vice President & Oklahoma City Branch Executive
Federal Reserve Bank of Kansas City
Purposes and Structure of the Federal Reserve System

• **Overall purposes of the Fed are to promote:**
  - Low and stable inflation
  - Maximum sustainable employment
  - National financial stability (in conjunction with others)

• **The primary functional areas of the Fed are:**
  - Monetary policy – typically the most well-known role to the public
  - Bank regulation – of bank holding companies, state Fed member banks
  - Payments systems – cash; electronic; bank for federal government

• **The Federal Reserve System consists of:**
  - Board of Governors: 7 members who are appointed by the U.S. President and confirmed by the Senate to serve 14-year terms.
  - Federal Reserve Banks: 12 Banks, each serving a unique district.
  - Federal Open Market Committee (FOMC): Consists of 12 voting members and 19 total members; sets national monetary policy
Federal Reserve Districts and Office Locations
The Kansas City and Oklahoma City Offices

- **Headquarters office in Kansas City**
  - Nearly 1,000 **staff** involved in all mission areas
  - **New building** officially opened in June 2008

- **Oklahoma City branch office**
  - **Staff and functions** – 35 staff involved in economic research, bank examinations, and public and community affairs
  - **Branch board of directors** – 7 members from around the state; provide anecdotal information in advance of each FOMC meeting

- **Oklahoma City branch board of directors**
  - **Chairman Steve Agee**, President, Agee Energy, and Professor, OCU, OKC
  - **Bill Anoatubby**, Governor, Chickasaw Nation, Ada
  - **Jim Dunn**, Chairman, Mill Creek Lumber & Supply Co., Tulsa
  - **Jacque Fiegel**, Senior EVP & COO, Coppermark Bank, OKC
  - **Fred Ramos**, COO, Latino Community Development Agency, OKC
  - **Doug Tippens**, President and CEO, Canadian State Bank, Yukon
  - **K. Vasudevan**, Chairman, Service and Technology Corp., Bartlesville
The U.S. Economy

- The U.S. economy is growing again, with help from monetary and fiscal stimulus.
- But the strength of recovery is likely to be modest, due to a number of factors.
- With modest growth, inflation is expected to remain tame in the near term.
Third quarter GDP growth was quite positive, but was boosted by government programs.

Heading forward, policy makers generally expect a gradual recovery

Gross Domestic Product

Percent change, year-over-year

But unemployment is expected to remain high for some time.
A list of reasons why U.S. recovery speed could be modest

- Some credit markets remain strained
- Consumers focus on repairing balance sheets and rebuilding wealth rather than spending
- Foreclosures continue to weigh on housing
- Problems in commercial real estate and general caution restrains business investment
With modest growth, inflation is expected to remain fairly moderate in coming years.
But the Fed’s balance sheet has grown, presenting some challenges.
The Oklahoma Economy

- As usual in recessions, Oklahoma entered this recession later than the nation.

- Some signs of stabilization have appeared recently, and fiscal stimulus is kicking in.

- But several risks remain, especially the future path of energy prices.
Oklahoma entered this recession late but has shed jobs rapidly in 2009

Source: U.S. Bureau of Labor Statistics
The decline in jobs has been sharpest outside of the three metro areas.

Oklahoma home prices have also held up relatively well, unlike the nation.
And home prices here appear to be better in line with fundamentals.

Home Prices and Per Capita Income Levels*
Index: 2000=100

*Home price indexes are quarterly, seasonally adjusted. Per capita income indexes are annual, and actual through 2008. For 2009-11, Macroeconomic Advisers' forecast for U.S. per capita income growth is used as an estimate.

Manufacturing indexes for the state have shown some improvement recently.

Source: ISM, FRBKC Manufacturing Survey

Note - 4th Quarter is only October
And, importantly, the rig count may have bottomed following a steep fall.
Agricultural conditions in the state remain rather weak, but also may have bottomed.
Farmland values in the state have flattened recently after rising rapidly in recent years.

Oklahoma Agricultural Land Values
Non-Irrigated Cropland

Percent change year-over-year
After rising in August and September, counter to the nation, new jobless claims fell in October.
And Oklahoma is receiving about as much fiscal stimulus as the nation.
So far, Oklahoma’s performance in this recession is fairly consistent with history

Oklahoma banks also remain in relatively better shape than the nation.
Summary

- The U.S. economy is growing, but job losses continue and recovery is expected to be modest.
- Oklahoma is showing some stabilizing signs, and stimulus is kicking in here as well.
- Some key risks to growth remain in the state, but these appear smaller than in the past.
