Commercial banks provided debt capital to U.S. agriculture.

Total Volume of Non-Real Estate Loans to Farmers From Commercial Banks

Billions of Dollars

Source: Federal Reserve Agricultural Finance Databook
Loan delinquency rates and charge-offs edge up.
Risks to the Agricultural Sector

- Will a sluggish recovery limit a farm rebound?
- Will fragile financial markets limit credit?
- Will farmland values hold?
After topping in 2009, what direction will farmland values follow?

Irrigated and Non-irrigated Cropland Values
(Tenth Federal Reserve District)

Source: Federal Reserve Banks of Kansas City
Nonfarm demand for farmland has fallen.

Reasons for Farmland Purchases by Nonfarmers

Percent of respondents*

Source: Federal Reserve Bank of Kansas City

*Respondents were asked the most common reasons for farmland purchases by individuals other than farmers. Respondents could choose more than one response and therefore percentages will not sum to 100.
Risks to the Agricultural Sector

- Will a sluggish recovery limit a farm rebound?
- Will fragile financial markets limit credit?
- Will farmland values hold?
- A 1970s déjà vu?
  - Two missing pieces: debt and inflation
In general, farmers are financially sound.

U.S. Debt Repayment Capacity Utilization

Source: USDA
Inflation remains well anchored.

Consumer Price Inflation Expectations

- Inflation over next 4 quarters
- Inflation over next 10 years

Source: Survey of Professional Forecasters
The Federal Reserve has to shrink its balance sheet.
Conclusions

- The economic recovery is underway.
- Any farm rebound will be driven by consumer demand.
- Will domestic or foreign consumers lead?
- Risks remain for agriculture.
- Ag conditions are strikingly similar to the 1970s.

Wall Street did not learn the lessons of the 1980s farm crisis. DID YOU?
