Transforming Nebraska’s Economy: Building on the Recovery
Today’s Roadmap

- Nebraska’s economy shakes off the summer lull.
- Agriculture rebounds with strong demand and lean supplies.
- Seizing opportunities in the recovery.
The Great Plains has withstood the recession better than the rest of the nation.
Job losses have not been as sharp as the nation as a whole.

Is a farmland bubble brewing? Are farmland values too high or rents too low?

Farmland Values to Rent Ratio

Ratio

- Iowa Farmland Value to Rent
- East NE Irrigated Cropland Value to Rent
- S&P PE Ratio (Average since 1945)

Calculations based on Iowa State University and University of Nebraska data
Today’s Roadmap

- Nebraska’s economy shakes off the summer lull.
- Agriculture rebounds with strong demand and lean supplies.
- Seizing opportunities in the recovery.
Rising demand lifts all boats.

From where will demand emerge?

What types of products do they want?

The Example of Food

• In 2008, almost half of the world’s population earns less than $2.50 per day.
• At $2.50 per day, most hunger problems are solved and people start incorporating proteins into their diet.
• Household amenities, such as microwave ovens, also shift food demand.
2) Infrastructure investments are needed to connect Nebraska to the global economy.

3) **Entrepreneurs are the foundations for revitalization.**

- Communities with stronger entrepreneurial activity have stronger economic growth.
- The benefits of entrepreneurship spill over to neighboring communities.
- The benefits of entrepreneurship build over time.
- Entrepreneurship is “creative destruction”. A business closing is not a failure, if it is replaced by a new business.

Index is composed of employer establishment growth, business formation rate, patents, and gross receipts of sole proprietorships and partnerships.
Entrepreneurship is often a mindset of seeing opportunities differently.

Ski Nebraska
4) Attracting and retaining labor is key.

- Many Nebraska counties struggle to maintain population levels, which limits labor availability and local demand.

- The quality of local labor pools is also a concern.
- How do Nebraska’s communities attract and retain the best and brightest?

NE Population Growth by County Type

Annualized percent change 2000 to 2009

- Metropolitan Counties
- Rural Counties Containing a City with More than 10,000 residents
- Other Rural Counties

Calculations based on U.S. Census data
5) High-quality labor is imperative for global competitiveness

U.S. and Nebraska Educational Attainment

- The rest of the world is closing the education gap – in secondary and college education.
- As the quantity gap closes, we need to focus on quality.
- But what does quality mean?

Educational Attainment by Age Group

- 4-year College Degree

Source: Census Bureau
Conclusions

- The recovery is underway in Nebraska, led by agriculture.
  - Modest job gains and low unemployment.
  - Stronger export activity offers opportunities in a global market.

- To compete globally, Nebraska must ...
  - Be entrepreneurial and innovative,
  - Provide the infrastructure for businesses to thrive, and
  - Contain great communities where people want to live, work, and play.

“It is not the strongest of the species that will survive, nor the most intelligent, but the most responsive to change.”

Charles Darwin
Federal Reserve Bank of Kansas City
Omaha Branch
