### Overview

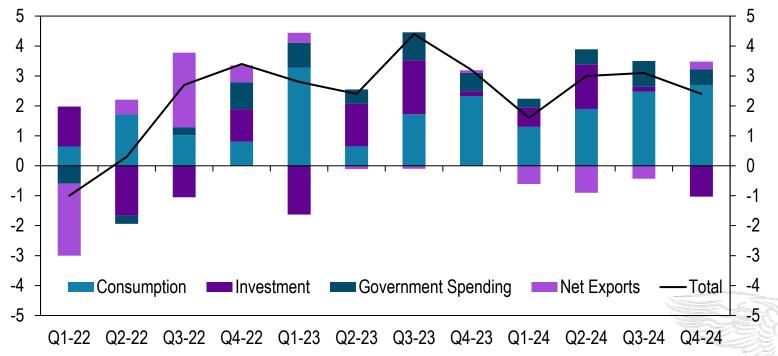

- U.S. economic growth has slowed but remained solid in 2024, and unemployment is up slightly but remains near long-term averages
- Inflation has come down to near 2%, and the labor market remains strong
  - · But upside risks have increased for both
- Oklahoma's economy also continues to grow, and unemployment is low
- Oklahoma's labor force participation rate met the national average for the first time in over three decades, driven primarily by Native Americans

### U.S. economic growth remains healthy, primarily driven by consumption
