Economic Conditions and Outlook

August 19, 2021 – Rocky Mountain Home Association

Nicholas Sly

Assistant Vice President, Economist and Denver Branch Executive

The views herein are those of the presenter and do not necessarily reflect those of the Federal Reserve Bank of Kansas City or the Federal Reserve System

Outlook themes

- After several months of sustained economic recovery, the outlook is tied to the uncertain path of the pandemic
- The influence of the pandemic on both consumer demand and supply disruptions remains substantial into this summer
- Recovery in employment has been uneven between small and large businesses, as well as across demographic groups
- Cost pressures are elevated and inflation is currently running above 2 percent

Overall economic activity has returned to pre-pandemic levels, but uncertainty about the outlook is growing amid rising COVID cases

Source: BEA, Wolters Kluwer, Haver Analytics

SERVE BANK OF KANSAS CITY

Consumer spending on goods is moderating from its surge during the pandemic, while spending on services is still recovering

Notes: Grey bars indicate recession shading

Household savings and improving labor market conditions will support moderate recovery in consumer spending

Sources: BEA, NBER Notes: Grey bars indicate recession shading

Consumer demand for services will depend on the path of the pandemic; responses to the recent surge in cases remains uncertain

Notes: Percentage change in retail spending is relative to January 2020 levels

Job gains have been steady in the most affected sectors, though the recovery employment is not yet complete

Sources: BLS, Haver Analytics Note: Percentage changes are relative to 2019 Q4

ESERVF BANK OF KAN

Overall unemployment continues to decline quickly but remains elevated, particularly for minority workers

Labor force participation is generally higher in Colorado and has recovered more fully than the rest of the nation

FEDERAL RESERVE BANK OF KANSAS CITY

Small businesses employ an outsized share of workers in Colorado, and the recovery among small business has only recently begun to pick up

Sources: U.S. Census Bureau, Current Population Survey, Staff Note: Values are a 5 year average taken between 2015 and 2019

Although applications for new small businesses surged in Colorado last year, relatively few of these business are likely to hire employees

Workers feel confident about seeking new employment opportunities and are quitting their current jobs at historic rates

Sources: BLS, NBER, Haver Analytics Notes: Grey bars indicate recession shading

FEDERAL RESERVE BANK OF KANSAS CITY

Wage growth is showing some signs of moderating generally, but remains elevated for low-skill jobs by historical standards

Notes: Grey bars indicate recession shading

FEDERAL RESERVE BANK OF KANSAS CITY

In addition to wage pressures, cost pressures for materials at various stages of production are elevated due to supply constraints

Sources: BLS, NBER, Haver Analytics Notes: Grey bars indicate recession shading

House prices continue to rise while overall housing cost indices are growing at subdued rates

Inflation currently exceeds the Federal Reserve's 2 percent target

Sources: BEA, NBER, Haver Analytics Notes: Grey bars indicate recession shading

Recent projections from the FOMC for the median participant indicate expectations for stability in the rate environment through 2022

Looking forward

- Uncertainty about the outlook is rising, potential leading to some precautionary behavior that will moderate the speed of the recovery
- Although household savings and business cash holdings are somewhat elevated, risks remain tilted to the downside
- The stance of monetary policy remains accommodative
