The Structure of the Federal Reserve System

- The Federal Reserve System was created by Congress in 1913.
- It is a public-private, decentralized institution consisting of the Board of Governors in Washington, D.C. and 12 regional Reserve Banks.
 - Board of Governors
 - Consists of seven members who are appointed by the President and confirmed by the Senate to serve 14-year terms.
 - There are currently five members of the Board of Governors: Jerome Powell, Michelle Bowman, Lael Brainard, Richard Clarida and Randal Quarles.
 - Regional Federal Reserve Banks
 - There are 12 Regional Reserve Banks, each serving a unique district. These are semi-independent by design.
 - The Reserve Banks are governed by their Board of Directors, and the Directors (excluding Banking Directors) select the President of the Bank.
 - Federal Open Market Committee (FOMC)
 - Comprised of the 7 members of the Board of Governors and the 12 Reserve Bank Presidents (only 5 presidents are voting members on a rotating basis).
 - Charged with conducting monetary policy.

Regional Federal Reserve Banks and Branch Locations

The Primary Functions of the Federal Reserve System

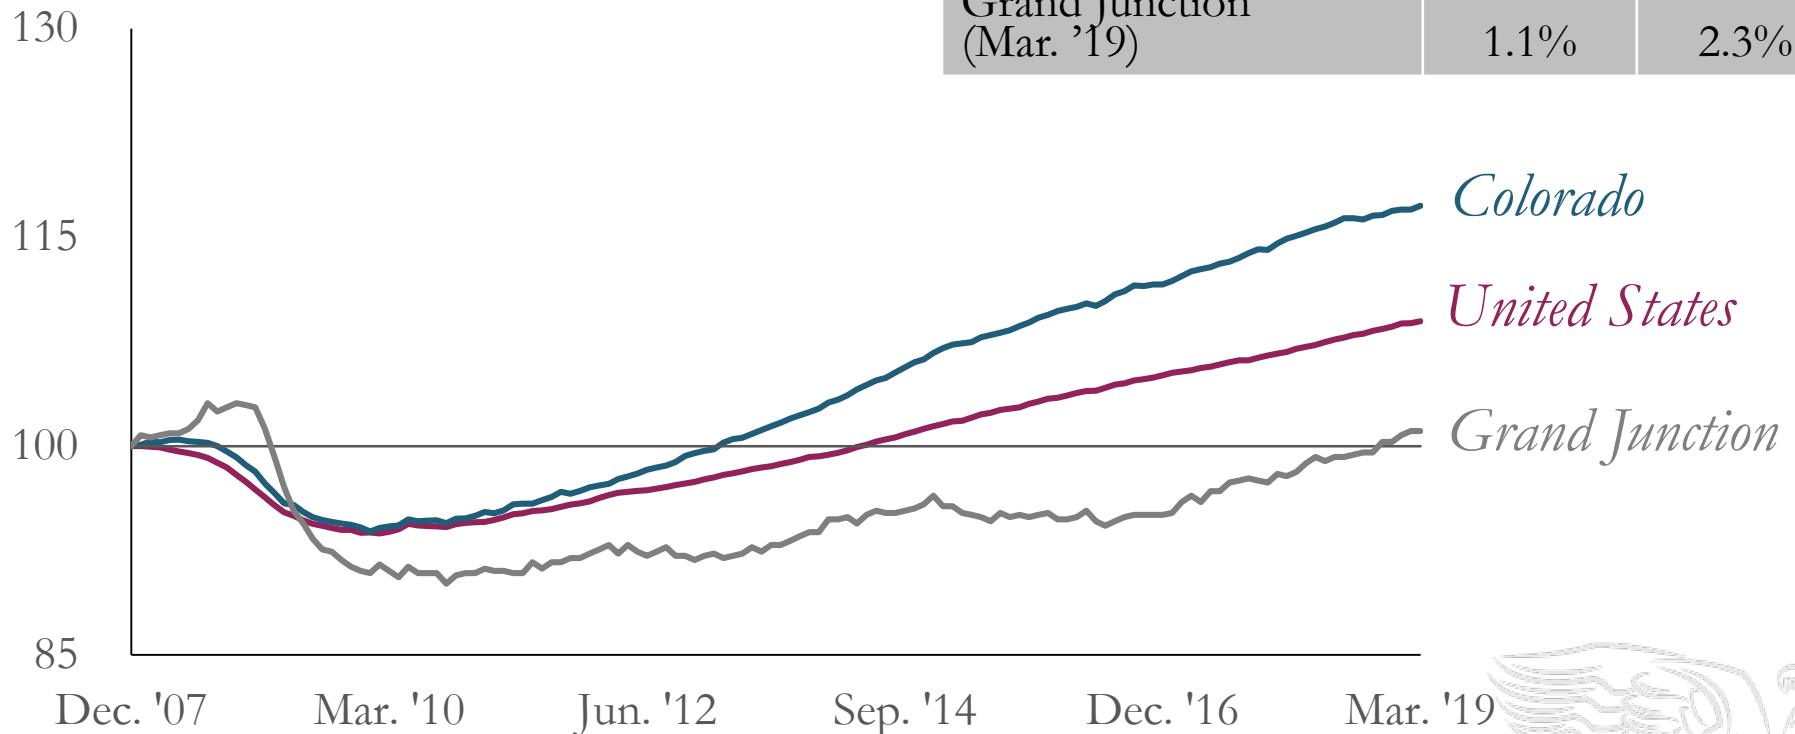

- Conduct the Nation's Monetary Policy
 - The Federal Open Market Committee is the group charged with conducting monetary policy within the U.S.
 - The Committee has a statutory mandate from Congress to promote maximum employment, stable prices and moderate long-term interest rates.
- Provide and Maintain an Effective and Efficient Payments System
 - The Federal Reserve supplies payments services to the public through depository institutions including banks, credit unions and savings and loans.
 - We also serve as a banking and fiscal agent for the United States government.
 - Payment services includes cash processing, processing and clearing checks, transferring funds and issuing, transferring and redeeming U.S. government securities.
- Supervise and Regulate Banking Operations
 - The Federal Reserve ensures the safety and soundness of banks and ensures that banks provide fair and equitable services to consumers.
 - The Federal Reserve also monitors and promotes the stability of the financial system as a whole.

Employment has been increasing in Colorado and the nation for more than eight years, with Colorado gains outpacing the nation.

The image features a large, circular, embossed seal of the Federal Reserve Bank of Denver, Colorado. The seal is set against a light-colored, textured background. The outer ring of the seal contains the text "FEDERAL RESERVE BANK" at the top and "DENVER, COLORADO" at the bottom. In the center of the seal is a shield with a building facade, flanked by olive and oak branches. Above the shield is an eagle with wings spread. The shield is topped with a row of stars.
