Overview

- U.S. economic indicators are mixed, with solid job growth but sluggish output, while inflation remains too high
- Several factors have boosted inflation over the past year, and several factors should help bring it back down
- Oklahoma's economy continues to recover, but jobs remain below pre-pandemic levels in some sectors, especially energy
- Oklahoma energy activity has expanded solidly in 2022, as oil and gas prices remain elevated, and population is growing

GDP growth has been modestly negative for 2 quarters, while job growth remains well above pre-COVID pace

Quarterly U.S. Economic Growth

Sources: BEA, BLS/Haver Analytics

GDP growth is expected to be below trend this year, before moving to its long-term trend in coming years

Change in Real GDP

U.S. unemployment remains historically low and is projected to edge up only slightly in coming years

U.S. Unemployment Rate

Meanwhile, inflation has moved well above the Fed's 2% target but is expected to ease heading forward

PCE Inflation Index

CPI inflation did ease slightly in July/August as goods and energy prices fell, but other prices kept rising

Consumer Price Index

Why is inflation high? Demand has been strong, driven by stimulus, higher wages and higher household wealth

U.S. Retail Sales and Food Services

U.S. Wage Growth

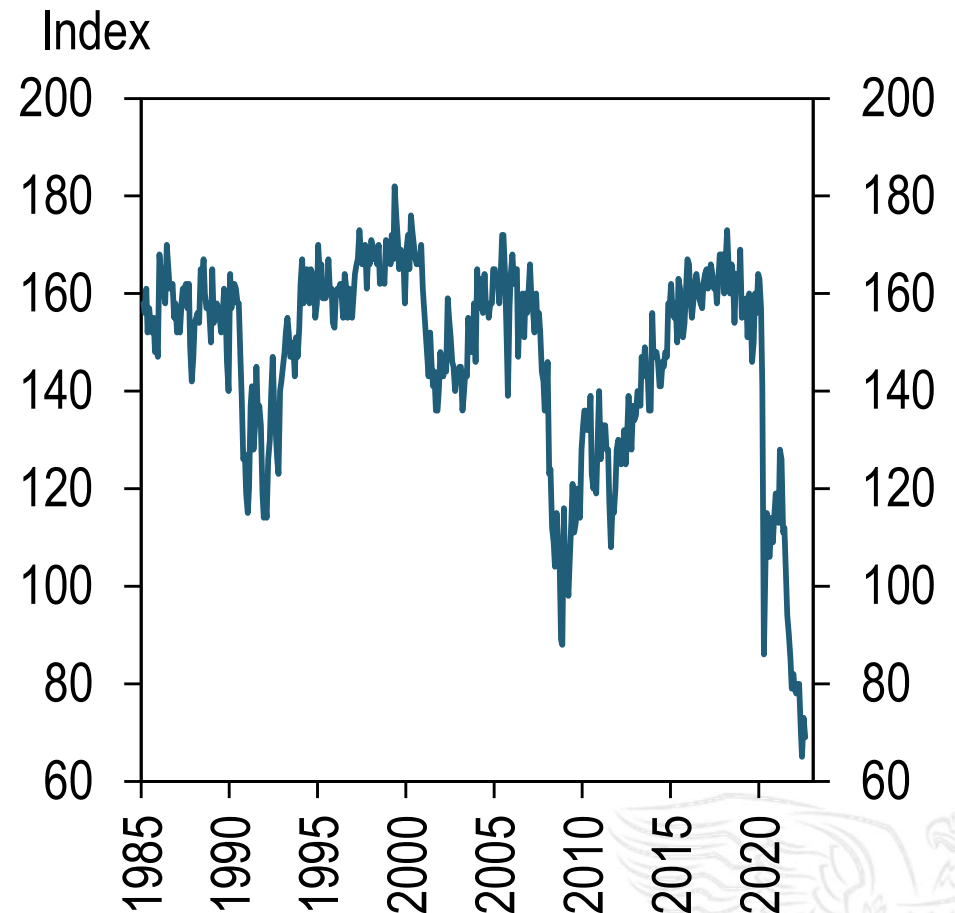

Where is inflation going? Demand is easing as stimulus fades and consumers react to higher prices

Fiscal Policy Contribution to Real GDP Growth

Buying Conditions for Large Household Goods

Where is inflation going? Longer-term inflation expectations remain around their 20-year average

Expected Inflation Rate

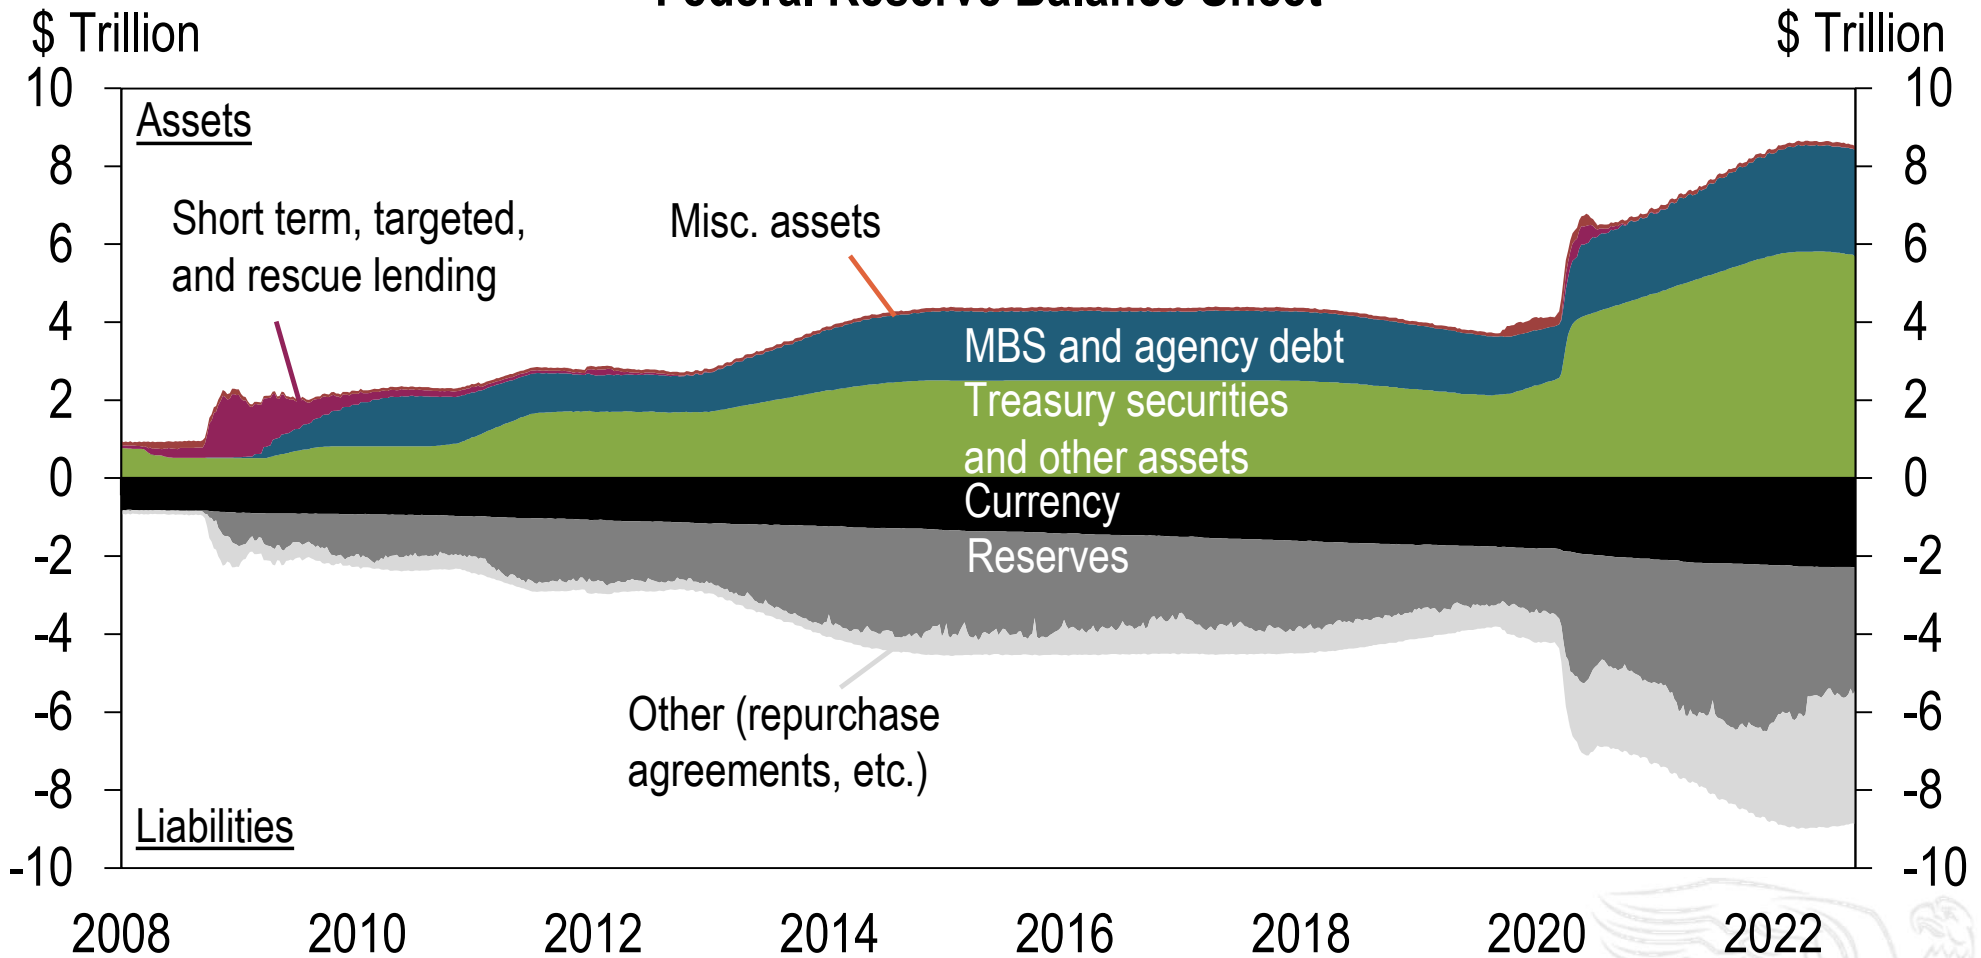

The Fed raised the federal funds rate by 75 basis points in September, with more increases expected

Federal Funds Rate
Year-End Target

The Fed has also begun to reduce its balance sheet of securities, further tightening policy

Federal Reserve Balance Sheet

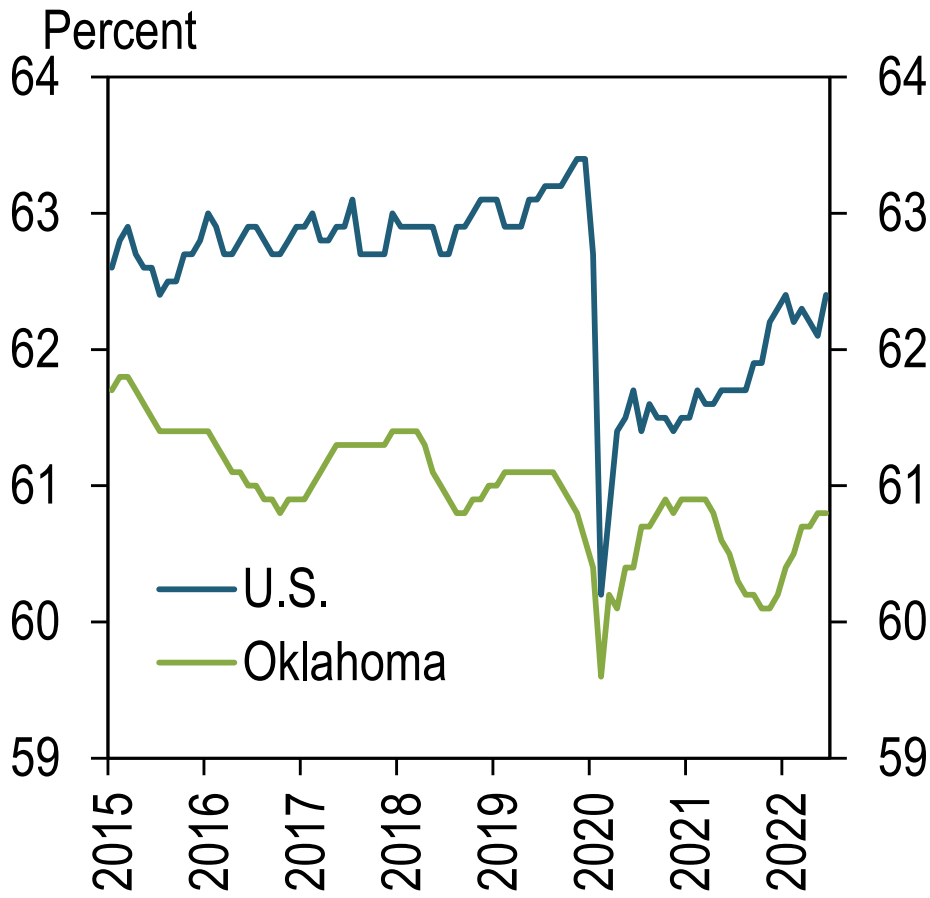

The number of job openings still greatly exceeds the number of unemployed workers but has leveled off

Job Openings/Unemployment Ratios

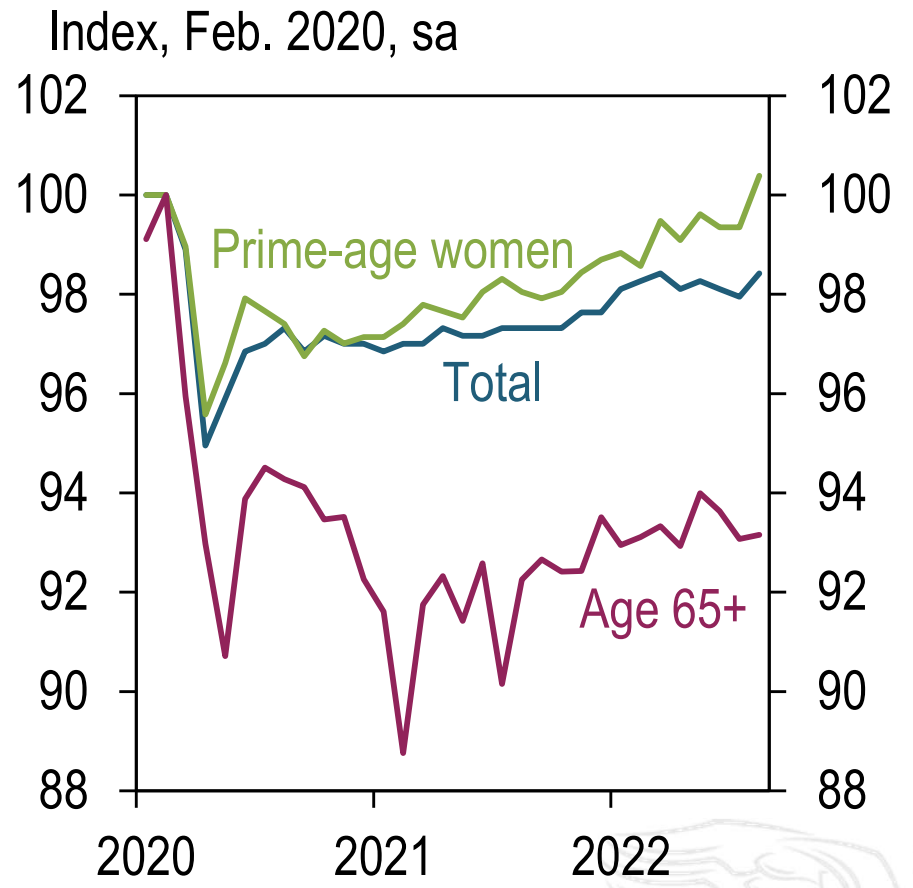

Labor force participation has improved in the nation and state, but lags pre-COVID due to older workers

Labor Force Participation Rate

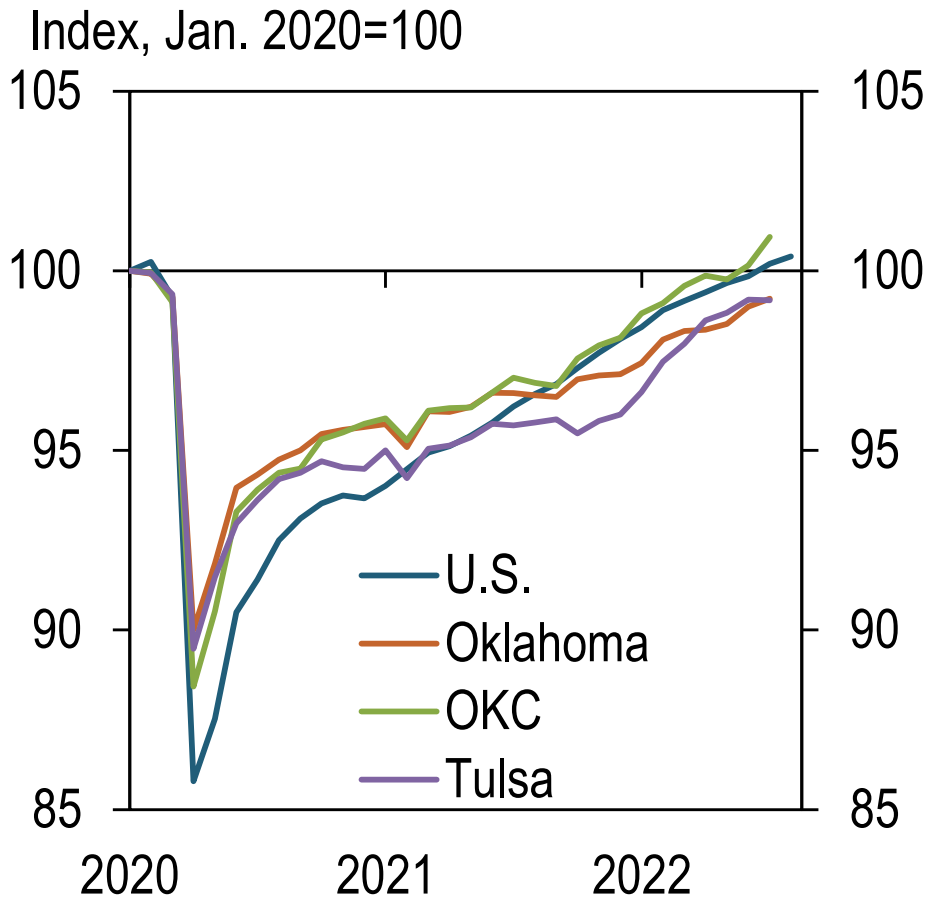

U.S. Labor Force Participation Rate

Jobs in Oklahoma are back to around pre-COVID levels, while unemployment has ticked up but is still very low

Non-Farm Payroll Employment

Unemployment Rate

Oklahoma employment is still down from pre-COVID levels in energy and office support-related industries
